## COLLECT 2010 / MEDIA STORAGE

Collect 2010 media storage is a distinct cabinet far away from any anonymous storage system and is characterised by its interesting doors with parts in different levels. Collect 2010 is the follow-up to the original colourful Collect cabinet.

The cabinet has holes for cable feeding and one movable shelf in each section. The doors are opened by a push mechanism. Collect 2010 media storage is available with frame, base or wheels.
