## ANGLE / STORAGE

The Angle storage system is a follow-up to our sculptural Angle shelf. The interesting angles are the same but the storage system consists of cabinets in four sizes and a drawer unit.

Angle is functional office storage behind a creative front with a distinct and clean design. The cabinets are dimensioned for the office and to store binders. The cabinet have movable shelves and the doors are opened by a push mechanism.

To allow you to create your own combination of cabinets all doors are available in mirrored versions.

**DESIGN** Sara Larsson

**MATERIAL** painted MDF
